User manual

# iLOQ S50

The Key Fob is your key and source of energy

- The Key Fob requires charging a few times a year
- When battery is low, the light flashes red

iLOQ [webbpage](#): iLOQ S50

The lock on the containers

# How to unlock the container

**FOB without button**

1. Place the back of the FOB against the round iLOQ knob under the lid and hold still
2. The small light on the FOB lights orange = contact is established
3. The light turns green = the lid is now open
4. Turn the iLOQ knob to the right and then open the lid
5. Close the lid after leaving your waste, please!

**FOB with button**

1. Push the button, marked with a padlock, on the FOB – the light flashes orange
2. Within five seconds -Place the back of the FOB against the round iLOQ knob under the lid and hold still
3. The light on the Key FOB lights orange = contact is established
4. The light turns green = the lid is now open
5. Turn the iLOQ knob to the right and then open the lid
6. Close the lid after leaving your waste, please!
