

Information for Holiday Home Owners

In order for you as a holiday home owner in Norsjö Municipality to dispose of your waste, you need access to our underground containers located at various places in the municipality. There you can dispose of food waste, residual waste, cardboard, paper, plastic, glass, and metal.

To access the containers for food and residual waste at the shared collection point, you need a so-called digital key – read more under “Option 1: Collection at a shared collection point.”

If you instead want your own bin for your holiday home, you need to order it from us (Norsjö Municipality). See more under the heading “Option 2: Change of subscription to your own bin or share a bin with yourself/neighbor.”

Option 1: Collection at a shared collection point (gemensam insamlingsplats also called ÅVS)

The decided collection fee for 2026 for “gemensam insamlingsplats” is SEK 750 for a holiday home. Please note that the fixed fee (SEK 1,250) must always be paid regardless of which collection subscription is chosen.

What is a digital key?

A digital key is a small application on your smartphone that allows you to unlock the containers for food and residual waste at the shared collection point using your phone. If you do not have a smartphone, it is instead possible to purchase a physical key tag (fob) for SEK 1,500 (one-time cost).

More information about the key and how to use it can be found here:

www.norsjo.se/atervinningsstationer/

What do I need to do now?

You need to submit your information so that we can activate your key in the new system. Send in the attached form or use our e-service (see separate sheet).

As soon as we have your information, we can activate your key and you will gain access to the new system. You will receive a link sent to your phone, which must be activated within 72 hours.

A list of shared containers for food and residual waste from holiday homes can be found here: www.norsjo.se/atervinningsstationer/

Option 2: Change of subscription to your own bin or share a bin with yourself/a neighbor

If you do not wish to dispose of waste from your holiday home at a shared collection point, the alternative is to have food and residual waste collected in your own bin. In that case, you need to change your collection subscription.

If you choose to switch to your own bin for your holiday home, you can next apply to share a bin between several properties that you own or with a neighboring property.

You will still dispose of cardboard, paper, plastic, glass, and metal at the shared collection point, and no digital key is required for those containers.

More information about costs and regulations for having your own bin, as well as the e-service and form for changing your subscription, can be found here: <https://minasidor.norsjo.se/oversikt/overview/296>

Exemptions (Dispensations)

According to the municipality's waste management regulations, certain exemptions may be granted under specific conditions.

You can read more about which exemptions may be granted and how to apply for an exemption here:

www.norsjo.se/dispenser-fran-avfallsforeskrifterna

Do you have questions about your waste collection subscription?

Contact us at the Technical Department at +46 918-141 56 or tekniska@norsjo.se

Response Form
